

Annual Vision

Live a calm, abundant life with family time daily, building leaders and earning from both Network Marketing and Freelancing. I start each morning with gratitude, planning, and outreach, then invest two focused blocks into my team and two focused blocks into freelancing delivery. I mentor new leaders weekly, host monthly trainings, and publish valuable content twice a week to attract the right people. I keep my evenings device-light so I can be present with family. I measure my progress every Sunday and adjust my weekly plan to stay aligned with my 2026 dream goal. I protect my focus time, automate routine tasks, and delegate where possible so I can stay in my zone of genius. I remind myself daily why this matters: freedom, impact, and stability for my family and everyone who trusts me to lead.
